

## Caspian Radar

**&** I know, cake sitter, is your password. You do not know me and you're most likely wondering why you're getting this email, correct?

In fact, I placed a malware on the adult video clips (pornography) website and do you know what, you visited this web site to experience fun (you know what I mean). While you were watching videos, your browser started out functioning as a RDP (Remote control Desktop) that has a key logger which provided me with access to your display screen and also cam. Just after that, my software collected all of your contacts from your Messenger, FB, and email.

What exactly did I do?

I made a double-screen video. 1st part displays the video you were viewing (you've got a fine taste :)), and 2nd part shows the recording of your web cam.

exactly what should you do?

Well, in my opinion, \$1900 is a fair price tag for our little secret. You'll make the payment through Bitcoin (if you don't know this, search "how to buy bitcoin" in Google).

Note:

You have one day to make the payment. (I've a special pixel in this message, and now I know that you have read this message). If I don't get the BitCoins, I will, no doubt send out your video to all of your contacts including friends and family, co-workers, and so forth. However, if I receive the payment, I will destroy the video immediately. If you want proof, reply with "Yes!" and I will certainly send out your video recording to your 9 friends. This is the non-negotiable offer, so please do not waste my time and yours by replying to this e-mail.

DOWN TO THE BOATS

Down

To the

Boats

I want to row now, he says.  
Maybe after a few lessons, don't you think.  
No, he says, I want to row now. I think I can do it.  
You can't do it, you'll have us thrown over the side.

I want to ....
