## Do It

If your going to do it  
Fucking do it right  
Don't mess around  
Wasting precious time  
If you're breaking my heart  
Just smash it coldly  
No pussy footing around  
Chipping away slowly  
Tearing a little at a time  
Bleeding love from my heart  
Dipping your fingers in  
Spreading it like modern art  
Rip it wide open  
Drowned me in the spray  
Crush it under your heel  
As you laugh and walk away  
So, if you're going to do it  
Just fucking do it right  
Let my heart finally heal  
So, I can get on with my life.
