(For Office)

Government slogans

To slather me in buttered up

Meaning and fluid

Crap all over

the
windshield.

Whind~up

dolls

toying with

their

M a sters.

A *lithe* list of propaganda targets

Hit and *run*

Me

In track laps.

When all returns to normal,
I hope to be on steadier footing
So when my mind clears
I find myself mid-frame-in-the-process-of running.

Force

Beats me down brickwise,
Culpable crowdad
Culpable daddy

Licks my wounds in china
Shards ejaculated
Ceramic orgasm

Stain my pants for the cause
Let me shit upward
Allow weatherbeaten trajectory

Cup to lip, nurse never comes
I'm voodoo remember
I'm voodoo huff

Light romance over shields
Protect me baby
Protect me gold

Bauhaus limn my ointment
Slather armpits
Shatter armpit hair

Too soon to speak
Wounded Coca-Cola
Wounded in my gut

Nurse! Problem offshore
Staple shut forehead
Staple steady door

Big corruption in pharma
Save our lives
Save our souls
