

Partha Sarkar

The blood sucker in the universe

The blood sucker in the universe.  
Has been broken the dyke in the Milky Way.  
That's why, prevails in the water project a drought  
And goes to the sea a vacuum to fill the blanks.  
But there is a health project in the mass rally  
During the epidemic!  
How do you ignore the wisdom of Mr. know- all?

If one is satisfied with little  
There will be no confusion  
In using toothpaste in the preamble.

## The silent Corridor and the Postmortem Report

Another farce.

The summit to stop the global warming.

Yet, the chaos are there

In the small intestine of the revolutionary and

Goes on the investigation

As is sick the earthen pot.

Yet, none notices the problem

Before the fall of the planet.

So,

Disappears the wisdom of the clodhopper.

Here comes the silent Corridor

With the hilarious Postmortem Report.

Hail civilization.

The engrossed corpse with a raven

The engrossed corpse with a raven –  
The two migratory philosophers in the backbone  
Of the posterity.  
They do the sum throughout the day  
Though there is a reluctant slumber  
And in the slumber there is an air-conditioned station.  
Suspended in the air the red signal.  
That's why, there is no direction  
And so, has no conclusion of the birth the engrossed corpse.
