## If Terminology Were Upside Down to Our Reality

Functions escaping externally, claiming future forms of surviving,  
faculties then would relate within multiple differences,  
soothing, scraping would shift in exhibitions,  
declaring in multiple mixtures,  
antithetical in a way deliverance may or may not  
succeed in explanation.

Fire's fury similar to that of hypothermia's lowering of the  
human's condition.

Rain maintains a dry attribute, showering with an aridness  
in which focus is the hazy element drawn across the  
entirety of earth's spinning stillness.

In all attributes reality is infused with esoteric benevolence,  
that is, by way of synchronizing intellect with  
characterizing change of meandering thought,  
illusional vernacular coinciding with fascination,  
the few that understand functionality of thought  
will never be without conceptual togetherness.

## Existence, Secure

Descending reflects a disposition of possible ascension.  
The mind escapes into metaphors, sees outward myriad  
motions, turning forays of spayed renditions, categorized as  
breaths of the living untold, mimicking silence in the divided  
definition of glorified openings.

An economy of elegies burn amid the hanging of hurried lives.  
The purification process puts the being into multiple  
surroundings, doubling shadows in exchange for  
futuristic speaking of foreign tongues.  
Through this form of existence, an inviolability  
is born into intentional sounds of secure reappearance.

## The Awaiting is Within the Openness

Watching jejune occurrences oscillate atop culture's  
many mundane metaphors, the act becomes  
akin to watching recreational racquetballs  
become bouncing tributes to scientific trivialities,  
mimicking staring at stark white walls of a bedroom's  
boredom.

This form of reality often wants to be reversed,  
a new form of unreality, yet one would settle for quasi  
or ersatz-reality, however, the jejune  
is typical and touted as normalcy  
for the citizenry are the walking sightless  
among the many facets of the hiding  
within open eyes.

## Severing, or Due to the Act

A graying softness, an intelligent display  
posited by a poignant wisdom lying underneath  
exhausted wind.

Gathering there as well ornamented leaves lighted as by  
fire, worn to the degree of nearly metaphysically  
impossible to describe.

Even further beyond barely breathing, born into  
circumstances displaying a sadness where mirrors  
reflect rounded colors distracting trueness of retrospect.

Through mazes of interconnecting allusions,  
ailments, alignment with an abstract connection with  
Plato's theory of ideas forces a conceptual guidance to  
lose focus with functionality, mirroring that of  
severing illegitimate theories from the mind's  
concept of postmodern vernacular.

## Assumption Regarding Beliefs

Assumption among the interweaving of society's patterned thought, posits evaluation toward existentialism, an encompassing philosophical theory regarding the citizenry residing within the metaphoric plazas, palaces, places of interest, hitherto the mind has rested upon forming imagery requiring hyper-imagination.

Silence dons a muted legacy.  
Therefore crowds of gathering flocks  
forsake mundane ennui for the colorful  
attributes of winged, well-informed languages  
of the methodical anti-established personas, who  
with respect toward becoming new, intrigue passersby  
through dedicated aspects of fortunate beliefs.

## Rare is a Species of Underground Worth, for Why Exist in the Fashion of Hiding?

Ornamented forms born beneath  
specified light, whose unrefined genesis  
wanting to be virtuosic schemas,  
visualizing all aspects of articulate behavior.

Gauging various gradation,  
conceptual philosophical reflection,  
as in spiraled examples of  
dialectical meaning,  
movements spacing value,  
visually processing modular tones  
becoming no longer exiled.

Continuity develops a separate dialect,  
splaying into an origin of metaphorical delusion,  
birthing light of ornamented species,  
gaining its development  
from multiplying motions.

## Though Relatively Unknown, the Catalyst is Always Visible

Absent understanding of the awakened,  
available visible, the taken care of  
finds solace in solitude  
behind closed off angles,  
shadowed benevolence,  
mechanical in movement,  
multidimensional emotions.  
Predetermination established  
within a vernacular of certain believers,  
those of a quality sewn into a fabric  
invisible to others. Understandable,  
à la mode in the tradition of  
antiestablishment following mechanism  
molds of Enlightenment age philosophers  
has become considered catastrophic in believability,  
and if construed within the balanced  
mind inappropriately, an existence no longer can fathom  
proper reality.

## Each of the Remaining Spoke in Reflective Responses

Understanding of several culturists,  
separated by only several syllables  
released from tiny tributes,  
each responsive regarding tone,  
teaching, threading implication of desire  
transparent enough to follow  
protocol of proper pronunciations.

Bodies of ersatz soothsayers  
who fundamentally faked all reality,  
the dreaming state justifiably had forsaken  
floating symbolism of pseudo statements,  
made loudly mechanical mirrors  
whose faces became inundated with  
suffocating bewilderment.

## When Focus is Shunned for an Obvious Blur

Accolades for a foreign concept, akin to smiling into  
desolate molds of immovable poverty.  
Frightened by reality's existence, the  
metaphysical advantage of knowing  
epistemologically each organic organism  
splaying forth, finding directional attributes  
inside the mind's multilayered meanings.

Many though, find these many meanings too lucid,  
and retract their existence into a hiding within a falling  
smaller, more monotonous with the à la mode  
popular lifestyles, there the duality of  
roaming within curtailed patterns of  
both relegated breaths and unfortunate steps  
toward delusional comprehension.

## Much of what is Aftermath is Illusional

The seen is seen in imaginary implications.  
Simple, the tones of drawn metaphors, combining  
clever contours with colorful endeavors,  
meant in a further attempt to multiply  
delusional, aggravated mind manipulations.

Therefore, hiding within minimalism, arranging an  
attachment which complies with the combing through  
dense, emotional caveat which may ensue,  
realization must occur, reoccur, historically  
fashioned in the shapes of future's looking back  
can create dispositional forthcoming cons with smiling faces.

## In a World of Insanity, the Sane is Outcast

Profiting from the vernacular of propaganda, insanity within the widened moments of opportunity, the specialized healed, broken-off cast from popular culture's limbs—the willing with the gouged eyes.

Gauging existence as in the specific surroundings of thermometry, weight truncates, evaporates into nothingness, showing malnutrition of thought, placing valuable investigation of ontological glorification, regarding why such neglectful disappearance of personifications have occurred so rapidly.

One voice enters an unconsciousness, a forgetfulness, a realization toward becoming an alone entity.

This voice is sane.

Immediately, the voice is outcast.

For in the world of the insane, saneness is incomprehensible, a biodegradable occurrence, relegated to the breaths deep below formations of the disregarded.

## Formulated Trilogy

A trilogy of ascertaining, collecting, believing  
puts personalities at risk,  
for those with a trilogy of dispositional  
attributes of intellectual etchings

advertises one's ability to become independent  
in thinking, and therefore the typical culture of  
antithetical thought becomes inundated with epithetical  
vernacular, which in a display of  
dishonest throwing toward inner resilience,  
the intellectual can critically examine  
the inappropriate verbal onslaught  
and formulate angular, logical,  
Socratic questioning,  
rearranging circumstances  
by placing assumptions asunder,  
vis-à-vis debatable  
by circling systems of thought, profiting only  
by metaphoric contributions.

## Remaining New Requires Shedding of Before

Sanctified realization comes in the shade of  
dedicated ensuing.

Every aspect of alive ability, requirements  
called calligraphic signature of oneself,  
differs within the intellectualized,  
whereas a group of deadened congregation,  
unspoken selves, whose moments of identifying  
worth revolve around a stagnant stance,  
a sinking enrollment of morose, transgressional  
affliction.

The before births an afterward, several into etcetera,  
maintaining creativity, allowing a remaining nascent  
understanding among remains through  
specified translucence—  
carried across several afterwards,  
waiting for realization of  
the comprehensible consciousness.

## Modernity Sleeps, Awaiting the Past

Emotional tangents, limping tears who,  
by default are forgotten transgressions delegated to a  
disposition of dreary occurrences.

Emotional content, fashioned into metaphors of  
modish meaning, declaring a finite specialization  
resigning all desirable tranquil entities,  
reliable aspects gauging provable terms  
in the idiom of enlightenment.

Stagnancy arrives, maintaining a solidified stance  
identified with applied pressure, putting into motion  
what the past has alerted its existence into obtaining.

# The Unity of Curiosity

*for Duane Locke*

Anatomies arranged in continuum  
species,  
spectrum of open arms

allowing  
interpretations to define  
elongated series of philosophical  
terminology, taken from tired  
tongues, as in stolen monuments  
of poetic minds, the forgotten and  
foreign

who in spectacular indentation  
within literary à la mode monotony  
are unaware of dichotomy, dissimilarities,  
following the protocol toward  
closing an improper gap of  
intellectual  
spontaneity.

## Epiphanies are Specialized Vernaculars

Guarantees, guesses, going back  
to their genesis,  
lives insist on inhabiting  
habitual dispositional nuances,  
shades of diaphanous degrees,  
where descriptive desires lay  
hidden requests beneath  
fully stretched and continuously  
contagious with wandering  
wishes.

Below the environment of wants,  
needs, fundamental stereotypes  
containing spatial nothingness between being and  
ergonomically sensitive environments,  
awareness arrives in methodical concepts,  
ingeminating realistic consciousness  
regarding awakened discernment,  
familiarity toward a focus  
of linear cohesiveness.

## The Size of the Equation Was Equivalent to Its Purpose

Early, as in a ripening feature,  
before light  
                  spread directionally  
between multifolding  
aspects of specialized  
                                  caricatures,  
sovereignty adorned with  
classical lines of Victorian themed presence,  
many formats containing promises,  
  premises,  
imaginative renditions regarding  
speculative species,  
whose original genetic  
terminology  
called for futuristic idioms,  
ideologies spoke toward the many listening  
of the hardly  
                  understanding.

## Somewhere there is a Silence Alienated from Its Mover

When by a categorized motion,  
put in place by an interaction first  
from a relegated Royalty,  
an imaginary ideology  
of will whose action's disposition  
is meant to enforce a specific  
elongated timeline of  
specialized moments.

An error,  
metaphorical in its monochromatic  
conceptuality,  
for the bland vernacular  
used in defining  
of reflectional contours,  
vis-à-vis abstractional displays  
pertaining to what now  
is absent in regards  
to its absolute genesis,  
shows absenteeism in the realm  
of proprietary  
existences.

These attributes  
participatory  
within impatience  
toward alienating  
one of its own species,  
thereby separating the culture  
of existence and reality,  
substituting metaphysical conceptuality  
with a brand of nonlinear discontent  
for adhering  
within categorical  
assemblage.

## Illusions Are Akin to Closed Eyes

As in the memories whose remnants have left fragments after evaporation, delegation holds focus clear enough for twirls to intertwine into spiraling time, vanishing.

Glare is a potion designed to fascinate, slip between the tightness of squinting passiveness. Among the dancing displays behind the lids of dark caves, half-dimensional, one-tone attributes of alienated mind mechanisms form, bouncing within the light of disturbed imagination.

## Of the Growing, Silence is Widest

Regarding maintaining solace within saneness,  
regarding a child's developing intellectually  
unhindered, he or she is not the focal point  
in which the importance has the heaviest weight  
balanced upon the sacred scale anymore; this now  
resides within the culture considered popular,  
a populous so revered by the outlandish,  
the overwhelming mode antithetical to mundane.  
The child now through metaphorical mazes must  
adhere to following specialized light, the various organic  
teachings from often shattered genesis, becoming  
the finished being of fatalism, predeterminism.

## Constituted Existence

Air ablaze with avant-garde blue billboards,  
acclimated to tonal carte blanche, rarified  
mind of sky's philosophical explanation  
exhibits

charcoal sketching echoes  
whose many shadows dim beneath darkened,  
rusty folded, creased clouds  
falls quiet into crawling white whispers.

Ebony-trailing

tails, twirls spiral, avifauna comprehend  
such dazzling movement,  
moments divide into themselves,  
echoing slightly softer a philosophy  
of metaphysical  
determination of  
being esoteric, escaping  
a priori evident to the believing,

although

aesthetics of the uneven represent  
diverseness, suspended capabilities  
forward the mind into self-evident  
ensuing.

Sarcasm shaped from epidemic elegies,  
language of the searing tears,  
tearing stories of lives lived  
from pages of pedestrians now too tired  
to cross avenues of civilizations  
from expired two-tone empires.

## Understanding Existence

Beliefs represent half-thoughts,  
whole thoughts spiral in rewinding  
dispositions,

    drawing inspiration,  
dragging tails in extraordinary  
exhibits of laziness, wholeness  
becomes only its name by way of  
becoming capitalized by intellectual  
hands in full-throttle mode.

    Interrogation  
of thought is only rational when  
rationality is begging to become  
second hand. Future wrinkles interpretations,  
insisting pseudo reflects colors of transgressional  
ensuing,  
    when mixtures regarding existence and  
reality dislodge metaphysical study.

## Mediator of Self and Language

Conversations with accuracy  
proclaim  
one to be without the reflection  
of fault. This invisibility  
transcends normality,  
inviting scrutinizing transgressions  
from the mimicking echoes  
of following evil—  
they who are unable to withdraw  
into a language of erasable truths—  
finding measurable messages to be  
delivered upon the ears of the listening  
blind. Speech focuses beyond the barely  
existing, for common syntax cannot  
spread evenly atop the body of emphasized  
truths.

## Analyzing

As the mind clarifies deconstructed  
mannerisms, those in which  
the dissected is unaware of its  
new discovery, burgeoning  
behavior,  
satisfaction can occur  
in the overwhelmed realm  
of that certain spectrum,  
if the newly blended diversity  
escapes into ascended areas of  
multiple vernaculars.

## Beauty

Elsewhere, as in devoid of the mind's reality, the bodies of beings who represent avid anti-illumination, the conceptually similar to nonchalance, stone-faced.

Appearance is structural, based upon advanced light, shadows, enhanced economical magic, illusional diversity sustains sanctified newness.

Regardless of opinion, assumption, developed thought regarding an individual's purpose devoted to personalized identity—ideologized mentalities arc toward necessities of proving motivated otherwise.

## Categorized Faith

Amid the required destinations of  
faith,  
the blind ability to fathom darkness  
and sanctified shape within its bodiless body,  
companionship for the mind to ascertain  
invisible autumns leading toward  
escaping years of tumultuous time.

Said of faith  
the mind is delirious,  
delusional, cannot recognize experimental  
thoughts  
used to delineate reality  
from existential tangibility.

As though the intellect intensifies  
thought processes  
intended

only for lighted paths to crawl  
atop thorn infused levitation.

Faith is often intertwined solely  
with  
religious reflections,  
yet in the paradox of crawling  
through holes large enough to create  
problematic closure, the philosophy  
of faith can inherit within the mind  
solution of  
ensuing opening.

## Contrary Perspectives

Because I find “forever”  
theoretical, speculative  
abstraction  
exercises widely  
within the mandatory width  
traveling the imagination  
of my mind’s slanted organization.  
Trusting a term  
manmade,  
hitherto  
dissects itself, splaying  
skin into a reveal  
of altered, fractured features.  
Forever is not a circumference  
circled reality,  
rather  
a choice to bewilder believing psyches,  
the silent whose culture educates  
from burgeon to the denuded aspect of  
unclothed thought,  
making those aware of  
the ceaseless entity  
that exists within the culture  
of popular estimation.

## An Intertwining of Want and Unveil

The revealed is contextual  
in regards to the mind's willingness  
to unravel against its own prejudices,  
preconceived notions, native languages  
learned from observing reflectional  
echoes,  
taught in planting dispositions,  
and the agreeable is unwilling  
to think their way from beginning  
to end from the maze of curiosity's  
pathological yearn.

## The Existing Exits From the Mouths of Many

Here in a sanctioned space dedicated to dialects  
determining existence or death,  
particular vernaculars etch themselves  
within methods of philosophical concepts,  
theoretical systems of patterned thoughts

where the listening must be wide eyed aware of,  
for the foreign tongues can negotiate systematic flourishing  
dialectics, opposites in a bipolar fashion  
day/night-open/closed exist feverishly.

The soothing does not counterfeit.  
Myriad of motions meander toward understanding  
emotional transcendental, encapsulation of  
accurate shaped translations of facial features  
whose will is to satisfy existentialism's  
core of fundamental beliefs.
